

DECEMBER 25 / JANUARY 2026

Vision systems
Thermoformed packaging
Dairy packaging
Injection moulding
Food safe lubricants
Food traceability
Conveyor belt systems
Labelling solutions
Robotic automation
Checkweighers
Bar coding
Dairy packaging
AI technology

Freeze drying
Colour sorting
Waste management
PET packaging

TRADE SHOW PREVIEWS:
PACKAGING INNOVATIONS & EMPACK 2026

Deadline: 12 January 2025

FEBRUARY / MARCH 2026

Strapping machines
Dairy packaging
X-Ray inspection
Vacuum packaging
Bag-in-box technology
Flooring innovations
Food traceability
Labelling solutions
Closure technology
Ready meal packaging
Thermoformed packaging
Embossed packaging techniques
Waste management
Robotic automation
AI Technology

Deadline: 10 March 2025

APRIL / MAY 2026

Packaging coding management systems
Stainless steel bespoke products
Vacuum pouch technology
Weighing technology
Ready Meal equipment
UV/EB technology
RFID (Radio Frequency Identification)
Waste management
AI technology
Tray erectors
Food traceability
Labelling solutions
Robotic automation
X-ray inspection systems

TRADE SHOW PREVIEWS:
interpack 2026
AUTOMATE 2026, NEC Birmingham, UK

Deadline: 24 April 2025

JUNE / JULY 2026

Vacuum packaging
Sensors for packaging
Waste management
Computer software
Food traceability
Closure technology
Ready meal packaging
Thermoformed packaging
Robotics
Barrier films
Closure technology
X-ray inspection systems
Labelling solutions
Strapping machines
AI technology
Recycling technology
PET technology

Deadline: 7 July 2025

AUGUST / SEPTEMBER 2026

Strapping machines
Dairy packaging
X-Ray inspection
Vacuum pouch packaging
Waste management
Bag-in-box technology
Flooring innovations
Closure technology
Ready meal packaging
Thermoformed packaging
Food traceability
Bagging technology

Labelling solutions
Weighing technology
Robotics
AI technology
PET packaging

TRADE SHOW PREVIEWS:
PPMA 2025, NEC Birmingham

Deadline: 1 September 2025

OCTOBER / NOVEMBER 2026

Injection moulding
Steam processing technology
Bagging technology
Ready meal packaging
Food safe lubricants
Cryogenic freezing
X-ray inspection advancements
Robotic automation
Barrier films
AI technology
Beverage processing techniques
Waste management
Closure technology
UV/EB technology
Food grade flooring innovations
PET technology

Deadline: 7 November 2025
